## PRESIDENT'S MESSAGE JULY 2021

### To all SNGMS Members:

Hello, fellow rockhounds!

It was great to see all the members who attended the July 12th General Meeting at the Eagle's Lodge. Ron Mazz did a superb job running the raffle and has volunteered to take this on for the next few meetings. Claudia Crouse has taken over as our membership committee chairperson and is expertly handling all the responsibilities associated with the position. Bruce Martin won first place and Ron Mazz was second place winner for the July cabochon contest. The Rocky Mountain Federation of Mineralogical Societies (RMFMS) Show at Big Piney, WY was a success with about 14 members who attended and represented our club. Lorrilee Stackhouse received two outstanding awards: first place webmaster award from RMFMS and second place webmaster award from nationwide American Federation of Mineralogical Societies. Congratulations, Lorrilee and we're grateful for all the members who represented SNGMS at the show!

Cliff Jackson, our new RMFMS Show chairperson, is very busy with organizing and coordinating for the Orleans event on June 17th-19th, 2022. Any members wishing to help and volunteer for this show are welcome to contact Cliff or any board member.

Please watch out for announcements regarding our future field trips, classes and general membership meetings.

Thanks to all of the members and volunteers who put in a lot of hard work to make this one of the best clubs in the country!

See you at the next club event!

**Lloyd Chayette, President SNGMS**

**Birthstones for the Month of July is Ruby:** Ruby is a pink to blood-red colored gemstone, a variety of the mineral corundum (aluminium oxide). Ruby is one of the traditional cardinal gems, together with amethyst, sapphire, emerald, and diamond.<sup>[3]</sup>The word *ruby* comes from *ruber*, Latin for red. The color of a ruby is due to the element chromium. A clear stone will command a premium, but a ruby without any needle-like rutile inclusions may indicate that the stone has been treated. Ruby Symbolizes love and passion. The Stone is associated with vitality and strong feelings. Because of its beauty and rarity, the Greeks called it the mother of all gemstones.

**ARE YOU SMARTER THAN A ROCK STAR!!!**

Our Sunday meeting started off with a demonstration from Linda on how to add a jump ring to a necklace. She gave each Rock Star a beautiful zoned blue crystal to use. Thank you Linda Each member received their first Jr. Rock hound patch from the American Federation. They all signed up to receive their next collecting patch. There were also Fish fossils for everyone to choose from. Each willing member got to help split a limestone slab. How fun was that?

As always thank you to the SNGMS members who volunteer to help with the Rock Stars. It is much appreciated.

Mary Beth

## Shop Talk : Brad's Bench Tips

### FANCY RIVET HEADS

For a nice looking rivet head, use brass escutcheon pins. You'll have perfectly rounded heads that are all the same size and shape. The pins are a little hard to find, so try the best hardware stores first. Be sure to get solid brass pins, not brass plated steel. If unsure, test them with a magnet.

The pins are readily available online. Lee Valley Tools has them in 16 or 18 gauge and lengths from 1/4 inch to 1 inch. Go to <http://www.LeeValley.com> and do an item search on "escutcheon pin".

For best results, select a drill that gives you a hole with a close fit to the rivet. Trim the rivet to leave a little less than one sticking out the back side. Place the head on a scrap of hard plastic on the anvil so as to not flatten the head. I prefer a ball peen hammer (with a small 3/8 inch ball) for setting the rivet.

### EASIER PRONG SETTING

When setting stones in a prong mount, the tool is less likely to slip off the prong if you grind a shallow groove into its face or rough up the face a bit with sandpaper. Some folks prefer a prong pusher for doing this, and others like a set of pliers with a slight groove on one jaw.

The easiest way to create a slot on the pusher is with a file, and the quickest way to create a slot on one jaw of your pliers is with a separating disc. Then do a rough polish on the slot with a medium grit, knife-edge silicone wheel.
